DEGREES

Bachelor of Arts in Interdisciplinary Studies

Bachelor of Science in Interdisciplinary Studies

The Interdisciplinary Studies degree program provides curricular alternatives to the traditional degree programs offered at Coastal Carolina University by allowing students to design programs of study which reflect individual needs and previous educational experience. The program serves the student who has specific and clearly defined academic and career goals.

The Interdisciplinary Studies program serves four distinct student populations:

1. regular students with educational objectives not met by a single degree program;
2. returning students having educational objectives determined by ongoing or intended employment opportunities;
3. returning or transfer students with previously earned college credits; and
4. individuals seeking a broad liberal arts degree.

Application procedures and guidelines for the Interdisciplinary Studies degree program may be obtained from the Director or Assistant Director of Interdisciplinary Studies. The completion of 30 semester credits is recommended before filing an application to the program. All applications for admission will be reviewed by the University Interdisciplinary Studies Committee. Consideration is given to previous course work and suitability of the proposed curriculum to the student's career and educational goals. The student must demonstrate that an individualized course of study will be an educationally sound alternative to traditional degree programs currently being offered at Coastal Carolina University.

Students applying to the Interdisciplinary Studies degree program, under the guidance of consulting faculty, develop a program of study listing the courses proposed to complete a degree program. Admission is not complete until the program of study contract has been approved by the University Interdisciplinary Studies Committee. All students must complete their approved program of study to be eligible for graduation. Any subsequent change of MAJOR requirements in the program of study will require the prior written approval of the student's faculty adviser, the Director of Interdisciplinary Studies, and the University Interdisciplinary Studies Committee.

The Interdisciplinary Studies program may accept up to 60 semester hours from technical colleges and up to 30 semester hours of nontraditional credit, provided that transcripts for such nontraditional activities are submitted. Transfer credit granted for technical and nontraditional studies apply as elective credit only. A maximum of 76 credits may be transferred for degree credits from any regionally accredited two-year college transfer program. A maximum of 90 credits may be transferred for degree credits from any regionally accredited four-year college or university. A maximum of nine (9) credits for Independent Study and/or Internship may be used to fulfill the degree requirements. The Interdisciplinary Studies Program requires its graduates to earn 122 semester credits with a minimum 2.00 GPA. The last 30 credits before graduation must be registered for and completed after acceptance into the program.

The guidelines printed here apply to Bachelor of Arts degree programs. Bachelor of Science degree programs require a mathematics sequence which includes MATH 160 and a minimum of twelve (12) hours of upper division (300-level or higher) credits in mathematics or the sciences.

Courses in MAJOR REQUIREMENTS require a grade of C or above.

One course labeled Writing Intensive (WI) must be taken by every student during each

of the sophomore, junior, and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

INTERDISCIPLINARY MINORS

The minors described below require course work from a variety of different disciplines. Students should consult their major advisers before selecting these minors.

International Studies Minor

Adviser: Dr. Pamela Martin

Students pursuing the International Studies Minor must consult with their major adviser and with the adviser of the minor to select courses that meet the program requirements. As a part of the application for the minor, students must meet all the courses' prerequisites and must explain their selections and how they complement their major course of study.

Students must select a total of six (6) courses minimum for the minor. In addition, a foreign language competency is required at the 210 level. If the student has studied another modern language at a comparable level, a substitution may be considered. Foreign Language 350 (Study Abroad) can be used to satisfy the language requirement. Students intending to obtain a minor in International Studies might need to take lower levels of the foreign language (e.g., 110, 120, 130), and they should plan to do that ahead of time. A maximum of two (2) courses from one field of study can be used toward the electives for this minor. Of the required six courses (18 credits) for the minor, only two (6 credits) may be below the 300 level. Other appropriate courses can be added to the minor at the discretion of the Adviser.

Many of the courses listed are offered on a limited basis. It is important to verify that the selections will be taught during the desired period of undergraduate study. The student must earn a grade of C or a passing certificate for each course applied to the minor.
