VII. Change to the Committee Membership Description in the Faculty Manual – Teresa Burns

MOTION

Change the Academic Affairs Committee Membership from

“Membership: Nine to eleven faculty (two elected from each College, one of whom must be a tenured faculty member, and one elected from the Library); two students (non-voting); and Ex-Officio: Provost’s designee, Vice President of Enrollment Management, and Registrar. The Chair will be elected from among the voting members who are in their third year of consecutive service.”

“Membership: Nine to eleven faculty (two elected from each College, one of whom must be a tenured faculty member, and one elected from the Library); two students (non-voting); and Ex-Officio: Provost’s designee, Director of Admissions, and Registrar. The Chair will be elected from among the voting members who are in their third year of consecutive service.”

Justification: Due to administrative changes at the level of vice president, the current description of the membership of the Academic Affairs Committee, as found in Faculty Manual 2014-15 is in need of change. Specifically, there is no longer a Vice President of Enrollment Management. Instead, the appropriate equivalent administrator is currently titled Director of Admissions. This is the now the appropriate descriptor for the committee member who will represent admissions on the committee. To reflect this administrative change, the description of the committee needs to change as above.
