A Student's Guide to Fellowships at Coastal Carolina University

A Student's Guide to Fellowships

	College of Science	College of Science	Spadoni College of Education	Edwards College of Humanities and Fine Arts	HTC Honors College and Center for Interdisciplinary Studies	The Wall College	All Colleges and Degree Fields	All Colleges and Degree Fields	All Colleges and Degree Fields
	<p>Research Fellows: Fellows conduct accelerated research in prospective areas of study. Students will work on tailored research projects with one-on-one faculty mentorship throughout. Fieldwork and presentations at national conferences are possible with travel costs covered through the program.</p>	<p>Swain Scholars: Scholars within health science programs prepare to identify and solve public health issues for communities and unique populations. Students will work through health outreach program planning, health science research and community involvement. When individual travel opportunities arise, the program will cover costs.</p>	<p>Research Fellows: Fellows receive academic support in making significant contributions to their field of study. Students will work on contributing towards collaborative research agendas along with faculty mentorship. Fieldwork and presentations at national conferences are possible with travel costs covered through the program.</p>	<p>Research Fellows: Fellows learn advanced research skills and are provided with research opportunities with faculty mentorship in order to make a significant contribution to a collaborative research, creative or applied project. Fieldwork and presentations at national conferences are possible with travel costs covered through the program.</p>	<p>Research Fellows: Fellows study and conduct research within a culture focused on promoting an honors curriculum. Students will work on tailored research projects with one-on-one faculty mentorship throughout. Fieldwork and presentations at national conferences are possible with travel costs covered through the program.</p>	<p>Community and Business Engagement (CoBE) Associates: Associates train and learn to solve real-time business problems. Students will work through engagement in practicum style consulting work for local and international businesses. Should individual travel opportunities arise, the program will cover travel costs.</p>	<p>Dyer Fellowship: Fellows examine public problems and public policy solutions at various levels of government. Students will work through personally driven research with one-on-one faculty mentorship, skill workshops and interaction with government and non-profit policy makers. Travel costs for annual conferences located in Washington D.C. are covered by the program.</p>	<p>Jackson Scholars: Scholars learn theories of ethics and their practical applications within humanities-based degrees. Students will work on focusing skills in philosophy courses, public speaking, debate, internships and community engagement. Should individual travel opportunities arise, the program will cover travel costs.</p>	<p>Wall Fellows: Fellows across all majors of study pursue high-level careers in major U.S. and international organizations. Students will work through career and personal coaching through one-on-one mentorship, leadership and project management training, work with business and civic organizations, international business projects and developing a wide range of social and cultural literacy.</p>
